

●●● C source code

```
1 #include <stdio.h>
2 #include <string.h>
3 int main(){
4     char *w[]={
5         "ZERO","ONE","TWO","THREE","FOUR","FIVE","SIX","SEVEN","EIGHT","NINE","TEN","ELEVEN","TWELVE"
6     };
7     int n;
8     while(scanf("%d",&n)&&n!=999)printf("%d %s\n",n,w[n]);
9     return 0;
10 }
```

●●● Program output

2 TWO

3 THREE

10 TEN
