

●●● C source code

```
1 #include <stdio.h>
2 #include <limits.h>
3 int main(){
4     char s[1000];
5     scanf("%999s",s);
6     int f[256]={
7         0
8     };
9     for(int i=0;s[i];i++)f[(unsigned char)s[i]]++;
10    int best=0,c=0;
11    for(int i=0;i<256;i++)if(f[i]>best){
12        best=f[i];
13        c=i;
14    }
15    printf("%c %d\n",c,best);
16    return 0;
17 }
```

Program output
